

Joomla! - JoomlaStats Visitors by Country v2.4-m1

Sunday, 20 January 2008

This is a modified version of the Visitors by Country module for JoomlaStats.

- Added Menu Class Suffix
- Added Module Class Suffix
- Fixed spacing in title text
- Removed spacing on percentages
- Removed decimal place from '< 1%' results
- Added number formatting to totals
- Fixed non-Countries displaying incorrect number of items

You can download the modified version [here](#).
